Rapid Colour

FAST. PRECISE. RESILIENT

www.scottbadergeltint.com
We are delighted to introduce Geltint, our brand new, fast, precise service producing high quality gelcoats for you. Recommended for use in all markets including marine, land transport and building applications. It is also suitable for general moulding requirements.

This system has replaced Crystic® Rapide with new and improved technology. Furthermore, we continue to expand our global reach with numerous GelTint machines situated in Europe. As GelTint continues to grow, we aim to install machines worldwide.

Call our Technical Support line on: +44 (0)1933 663100

**FAST**
In the UK we offer a maximum 5 day standard lead time for GelTint.* There is also a premium service available with guaranteed delivery within 48 hours. For the 48 hour service the order must be placed before 12PM.

**PRECISE**
The GelTint machine automatically dispenses a precise volume of colourant into each batch for a very high batch to batch consistency.

**RESILIENT**
GelTint uses gelcoats renowned for their long term resistance to weathering, with low colour change and high gloss retention.

*All lead times are taken from the customer order and are applicable for working days only. The 5 day lead time excludes delivery.
BENEFITS OF GELTINT

GelTint products contain plastic **liners** providing cheaper, more environmentally friendly waste disposal.

This is due to a reduced keg size of 20 L.

These include **RAL, NCS, British Standard** and our own **custom Scott Bader colours**.

Ideal for customers requiring anything from a single to multiple kegs.

Products with **Lloyd’s Approval for Marine**: GT-600, GT-640 & GT-900.
GelTint Bases
GelTint has a selection of bases available to satisfy all markets. The current bases available in GelTint:

Isophthalic Gelcoats*
GT-600: Isophthalic Gelcoat for Brush Application
GT-640: Low Viscosity Isophthalic Gelcoat for Brush Application
GT-900: Isophthalic Gelcoat for Spray Application
*Products with Lloyd’s approval for Marine

Iso-NPG Gelcoats
GT-1000: Iso-NPG Gelcoat for Spray Application
GT-310: Iso-NPG Gelcoat for Brush Application

Topcoats
Topcoat versions are available in all bases

Colourants
Dispense colourants from the RAL, BS and NCS standards

GelTint Colourants
The colourants are formulated with new pigmentation technology. They are:

- Low hazard
- Styrene-free
- Lead-free
- Robust in Colour Durability

Call our Technical Support line on: +44 (0)1933 663100
GelTint bases and colourants are specially formulated to work together to reduce shadowing and streaking, producing a high quality final product.

We have a wide range of colours available including RAL, NCS, British Standard and our custom Scott Bader colours. Colour matching is available if you need a specific colour which is not currently available in the range.

**Recommended Markets**
- Marine*
- Land Transport
- Building Applications
- General Moulding Requirements

*We do not recommend the use of coloured gelcoats below the DWL and we do not recommended for repairs.
STEP BY STEP DIAGRAM

1. Our GelTint team is dedicated to process your order
   - Just select your required base and colour

2. The product will be chosen from our GelTint system using our tailored software

3. The keg is placed under the GelTint machine
   - The automated colourant dispensing system produces the final tinted product

4. The keg is mixed using our gyroscopic mixer
   - This ensures consistent pigment dispersion in the final product

5. The product is labelled and despatched to the customer’s location

About Scott Bader

Scott Bader was established in 1921 and today we are an independent, multinational chemical company with over 640 employees worldwide. We are a common trusteeship company, which means Scott Bader is owned by all employees, and can operate with great agility and innovation for the customers and industries we serve.

Scott Bader has a team of technical experts to assist you with any queries or comments on our products.

Application guidance can be found in the Scott Bader Crystic® Gelcoat Handling Guide.

A full selection of our gelcoats can be found in the Scott Bader Crystic® Gelcoat Range.

For all customers new to GelTint or using a new colour, we recommend that they test the product first before use in full scale production. Please refer to GelTint technical data sheets for specific material properties on our products.

Alternatively you can speak to your local sales representative or our technical service department.
